

DATA CUTTER THIRD-PARTY AND EXTERNAL USE ADDENDUM

Business Users

Version 1.0 - August 2026

PLEASE READ THIS ADDENDUM TOGETHER WITH THE DATA CUTTER MASTER LICENCE.

This DataCutter Third-Party and External Use Addendum (Addendum) supplements the DataCutter Master Licence between Basemap Limited (Basemap, Licensor, us or we) and the Licensee identified in Schedule 1. It records the specific Additional Use Permission or permissions purchased or otherwise granted to the Licensee for uses which are excluded from the Standard Permitted Use under the Master Licence.

This Addendum is not a standalone licence. Except to the extent expressly varied by this Addendum, the Master Licence, the applicable Order and all Dataset-Specific Terms remain in full force and effect.

1. RELATIONSHIP WITH THE MASTER LICENCE

1.1 This Addendum forms part of the contractual licensing arrangement established by the DataCutter Master Licence identified in Schedule 1.

1.2 Capitalised terms used but not defined in this Addendum have the meanings given to them in the Master Licence.

1.3 The rights granted by this Addendum are Additional Use Permissions for the purposes of the Master Licence and apply only to the uses expressly marked as Licensed and described in Schedule 1.

1.4 If there is a conflict between this Addendum and the Master Licence, this Addendum prevails only to the extent necessary to give effect to the specific Additional Use Permission granted by it. In all other respects, the Master Licence continues to apply.

2. GRANT AND SCOPE OF ADDITIONAL USE PERMISSION

2.1 In consideration of the Licensee accepting this Addendum and paying the applicable Additional Use Permission Fee, Basemap grants the Licensee a non-exclusive, non-transferable permission to carry out only those Excluded Uses expressly marked as Licensed in Schedule 1, subject to the scope, restrictions and conditions stated in this Addendum, the Master Licence, the applicable Order and any Dataset-Specific Terms.

2.2 The Additional Use Permission is limited to the Licensed Data Sets, named Third-Party Platform, named Externally Accessible Product or Service, external user group, permitted purpose, geography, duration, usage limits and other scope identified in Schedule 1.

2.3 Any right not expressly marked as Licensed or otherwise expressly granted in Schedule 1 remains Not Licensed. No rights arise by implication, course of dealing, technical capability or payment of the standard DataCutter subscription or licence fee.

2.4 Where a proposed use falls within more than one Excluded Use, each applicable permission must be expressly marked as Licensed. For example, permission to use a Data Set in a Third-Party Platform does not by itself permit external users to access the resulting product or service, and neither permission grants Redistribution unless Redistribution is separately marked as Licensed.

3. THIRD-PARTY PLATFORM USE

3.1 Where Third-Party Platform Use is marked as Licensed in Schedule 1, the Licensee may upload, transmit or otherwise make the Licensed Data Sets available to the named Third-Party Platform solely to the extent necessary for the Permitted Purpose and within the scope stated in Schedule 1.

3.2 The third-party platform provider receives no independent licence or ownership right in the Licensed Data Sets. It may access, store, process or analyse the Licensed Data Sets only as necessary to provide the named platform or service for the Licensee and must not sell, sublicense, publish, redistribute or independently exploit the Licensed Data Sets.

3.3 The Licensee must ensure that reasonable contractual, technical and organisational controls apply to the third-party platform provider, including appropriate controls relating to security, confidentiality, access, retention and deletion of the Licensed Data Sets.

3.4 Unless expressly stated otherwise in Schedule 1, the Additional Use Permission is specific to the named Third-Party Platform. Moving the Licensed Data Sets to, or using them within, another third-party platform requires a further or varied Additional Use Permission.

4. EXTERNAL PRODUCT OR SERVICE USE

4.1 Where External Product or Service Use is marked as Licensed in Schedule 1, the Licensee may use the Licensed Data Sets and permitted Derived Outputs within or in connection with the named Externally Accessible Product or Service solely for the Permitted Purpose and for the external user group identified in Schedule 1.

4.2 External users may access only the functionality, information, results or outputs authorised by Schedule 1. Unless Redistribution is separately marked as Licensed, the Licensee must not make the underlying Licensed Data Sets available for download, export, extraction or reconstruction by external users.

4.3 Permission to make Derived Outputs externally available applies only within the scope of the named product or service and does not create a general right to publish, sell, sublicense or redistribute the underlying Licensed Data Sets.

4.4 Unless expressly stated otherwise in Schedule 1, the Additional Use Permission is specific to the named Externally Accessible Product or Service. Use of the Licensed Data Sets in another externally accessible product or service requires a further or varied Additional Use Permission.

5. REDISTRIBUTION

5.1 Redistribution is Not Licensed unless Schedule 1 expressly marks Redistribution Rights as Licensed and describes the permitted recipients, format, volume, purpose and any onward-use restrictions.

5.2 Where Redistribution is Licensed, the Licensee may redistribute only the Licensed Data Sets, extracts or fields expressly identified in Schedule 1 and only within the stated scope.

5.3 No right of onward redistribution, sublicensing or independent commercial use by a recipient is granted unless Schedule 1 expressly states otherwise.

6. DATASET-SPECIFIC RESTRICTIONS

6.1 This Addendum applies only to the Data Sets expressly listed as Licensed Data Sets in Schedule 1. Access to a Data Set under a Bronze, Silver, Gold, PSGA or other DataCutter tier does not automatically bring that Data Set within this Addendum.

6.2 Third-Party Data remains subject to all applicable Dataset-Specific Terms, attribution requirements, eligibility rules and supplier restrictions. This Addendum does not grant any right in Third-Party Data which Basemap is not entitled to grant.

6.3 Where Dataset-Specific Terms prohibit or more narrowly restrict a proposed Third-Party Platform Use, External Product or Service Use or Redistribution, those Dataset-Specific Terms prevail in relation to the affected Data Set to the extent of the conflict.

6.4 If a Dataset-Specific Term requires a separate supplier licence, end-user agreement, approval or fee, the Licensee must obtain or satisfy that requirement before carrying out the affected use.

7. FEES AND COMMERCIAL TERMS

7.1 The Additional Use Permission Fee stated in Schedule 1 is payable in addition to the fees for the Licensee's underlying DataCutter tier, user licence or Data Set entitlement unless Schedule 1 expressly states that it is included.

7.2 The grant of the Additional Use Permission is conditional on the Licensee paying the Additional Use Permission Fee in accordance with the payment terms agreed in the applicable Order, quotation, invoice or Schedule 1.

7.3 Unless expressly stated otherwise, payment of the Additional Use Permission Fee does not change the Licensee's DataCutter tier, increase its number of users or concurrent seats, or grant access to any additional Data Set.

7.4 Any renewal, extension or material expansion of the permitted platform, product, external user group, Data Sets, geography, purpose or usage volume may be subject to a revised Additional Use Permission Fee agreed in writing.

8. TERM, SUSPENSION AND TERMINATION

8.1 This Addendum begins on the Effective Date and continues until the End Date stated in Schedule 1, unless terminated earlier in accordance with the Master Licence or this Addendum.

8.2 Unless Basemap expressly agrees otherwise in writing, an Additional Use Permission cannot continue after the Licensee's underlying entitlement to the relevant Licensed Data Set expires or terminates.

8.3 A breach of this Addendum is a breach of the Master Licence. Basemap may exercise the suspension, termination and other remedies available under the Master Licence in relation to the affected Additional Use Permission.

8.4 On expiry or termination of an Additional Use Permission, the Licensee must cease the affected Third-Party Platform Use, External Product or Service Use and/or Redistribution and must take reasonable steps to ensure that the named third-party platform provider deletes or returns the affected Licensed Data Sets, subject to any lawful retention requirement and the Master Licence.

9. GENERAL

9.1 Except for the Additional Use Permissions expressly granted by this Addendum, all restrictions and obligations in the Master Licence remain unchanged.

9.2 This Addendum does not transfer ownership of any Data Set or intellectual property right and does not authorise the Licensee or any third party to represent that it owns the Licensed Data Sets.

9.3 This Addendum, the Master Licence, the applicable Order and the applicable Dataset-Specific Terms together constitute the contractual terms governing the Additional Use Permissions recorded in Schedule 1.

9.4 This Addendum may be accepted by signature, through an Order or checkout record that expressly incorporates it, or by another written method agreed between Basemap and the Licensee.

SCHEDULE 1. ADDITIONAL USE PERMISSION SUMMARY

Complete this Schedule for each customer. A permission is not granted unless it is expressly marked as Licensed and its scope is sufficiently identified.

Licence Item	Entitlement / Position
Licensee	[Insert legal entity]
Addendum Reference	[Insert reference]
Master Licence	DataCutter Master Licence Version 2.1 - August 2026 / other: [insert]
Order / Subscription Reference	[Insert]
DataCutter Tier	Bronze / Silver / Gold / PSGA / Other: [insert]
Effective Date	[Insert]
End Date	[Insert]
Licensed Data Sets	[List only the Data Sets covered by this Addendum]
Third-Party Platform Use	Not Licensed / Licensed
Named Third-Party Platform(s)	[Insert platform/provider and, where appropriate, deployment or account]
External Product / Service Use	Not Licensed / Licensed
Named External Product / Service	[Insert product/service]
External User Group	[Insert who may access the product/service, e.g. named organisations, public-sector users, customers or public users]
Permitted Purpose	[Insert precise permitted use]
Geographic Scope	[Insert, if applicable]
Redistribution Rights	Not Licensed / Licensed only as described below
Permitted Redistribution	[Insert recipients, fields/data, format and purpose, if licensed]
Usage / Volume Limits	[Insert transactions, users, requests, records or other limits, if applicable]
Security / Retention / Deletion Conditions	[Insert any platform-specific controls]
Additional Use Permission Fee	[Insert fee and whether annual, one-off or other basis]
Payment / Renewal Terms	[Insert]
Additional Conditions	[Insert any other agreed limitations or requirements]

ACCEPTANCE

Where signature is used to accept this Addendum, the parties may sign below. This section is not required where the Addendum is incorporated into an accepted Order, checkout record or other written agreement.
